

3 Rules For Roulette for use with The Edge

Rule 1: We only bet on the 1 to 1 payoff bets (There is one exception explained later)

Rule 2: If you lose 2 times in a row, stop betting and begin again when your betting “area” hits again.

Rule 3: When first going to a table wait one spin and choose from the 3 possible 1 to 1 payoff winners (even or odd, red or black, and 1 - 18 or 19 - 36. Sometimes called high/low)

Now **YOU** are ready for the nuts and bolts of **The Edge System**

Lets start by explaining the chart to the right.

You will see the yellow line on the center and the word Start to the far left. This is where you will begin your sessions. **Always** begin here.

The gray column on the left, you will notice numbers on the topside are positive and the bottom side is negative, all you do is multiply the number by bet minimum increment. This will show you what you are up or down.

The W/L Column (The Aqua column) is based on \$5 . This is the amount you have won or lost. This is for reference only

Press Column (P1) - You will notice a dollar amount, all winning bet are pressed* once, the dollar amount is the initial starting money for that row. Example row 3 says in the press column (P1) \$10. Begin that series

	W / L	P1	LOSE	WIN
16	\$80	S.E	S.E.	n/a
15	\$75	\$5	14	n/a
14	\$70	\$5	13	S.E.
13	\$65	\$5	12	16

with a \$10 bet.

The LOSE and WIN column shows you where what row you begin your next series of bets if you lose at anytime in the series.

S.E. = Session End

12	\$60	\$10	10	S.E.
11	\$55	\$10	8	S.E.
10	\$50	\$5	9	13
9	\$45	\$5	8	12
8	\$40	Should End Session		n/a
7	\$35	\$5	6	10
6	\$30	\$10	4	13
5	\$25	\$5	4	8
4	\$20	\$10	2	10
3	\$15	\$10	1	9
2	\$10	\$5	1	5

* Always Begin on Start.

* After a winning bet on start move to row 1. If you lose on start move to row -1.

* Anytime after start, a losing bet refers to the lose column. The numberr located in that box will direct you to the next row to begin your next series.

* Anytime after start, a winning series of bets, you move to the row in the Win column.

- * There are 3 ways to end session.
 1. The First way is if the chart moves you to 8. (You would win 100% of your bankroll for that session. Which means starting at an \$40 bankroll for the session you would make \$40.)
 2. The second way to end a session is to reach row 16 or win any Press 1, on 13 through 16. You will know when to go for row 16. If above row 8 and you slide down the chart back to row 8 you end your session.
 3. The Last way is if you lose on -8.

1	\$5	\$5	Start	4
Start		No Press		1
-1	-\$5	\$5	-2	2
-2	-\$10	\$5	-3	1
-3	-\$15	\$5	-4	Start
-4	-\$20	\$5	-5	-1
-5	-\$25	\$5	-6	-2
-6	-\$30	\$5	-7	-3
-7	-\$35	\$5	-8	-4
-8	-\$40	\$5	S.E.	-5

- * Only increase your bet after a winning bet, when pressing your bet you will be insuring your use of the casino's money.

- * A series is when you begin betting on a row. (Example: After winning one press on row -1 you will move to row 2. Then this series begin on 2.

- * Always bet on 1 to 1 payoffs also known as even money bets. With only one exception to this rule. (one bet at a time) **Note:** If you have the bankroll and full understanding of The Edge system You can play 2 or all 3 of the even money bets. Our more aggressive players do very well playnig this way.

- * When a 0 or 00 is spun, drop down 1 row. On the next bet make a split bet on the 0 and 00 (At your current row's minimum). If you win this bet you begin at start again, put profits in your pocket ;-)

- * If you get back on start, begin session over. You will be at even money.

Note: If you deviate from the above System YOU ARE NOT PLAYING THE SYSTEM Disclaimer: We are not responsible for any loses that may incur. We believe you will have an extremely high advantage to win. We hope you have fun ALWAYS when you play any games at the casino.

* **“Press a Bet”** To increase the size of a bet, after a win by the amount of that win

Example: You win \$5 bet (One to one pay off) You receive \$5 plus the win of \$5. Now to “press the bet” You would bet \$10 on your next bet.
